Modular Cooking Range Line S90 Electric Solid Top on Pass-Through Electric Oven, Island, 2 Side

584156 (WLWWCBOOOC)	S90 Electric Solid Top, pass-through open base, island, 2 side operation – 208 V
584157 (WLXWCBOOOC)	S90 Electric Solid Top, pass-through open base, island, 2 side operation – 240 V

Short Form Specification

Item No. ______________________

Unit to be Electrolux S90 Heavy Duty Electric Solid Top on Pass Through Electric Oven. Electrical characteristics to be ___ 208 V or ___ 240 V three phase. Unit to be installed in central island type installations with operations from both sides. Unit shall have joint free large cooking surface with 4 heating areas with individual temperature settings for each zone from as low as 212 °F (100 °C) to as high as 842 °F (450 °C). Large flat cooking surface made of mild steel permits the use of a number of various sized pots and pans, all easily moved across the surface without lifting. Body and open base of unit entirely in 304 stainless steel. Unit shall have heavy duty 304 stainless steel internal frame. Extra strength work top in heavy duty 0.118″ (3 mm) stainless steel. "Lasertec" connection system permits units to be connected to each other creating a seamless work top.

Covered by Electrolux Platinum Star® Service Program two-year parts and one-year labor warranty, installation start-up and performance check-up after one year from installation.

Approval: ______________________

Main features

- Unit for island type installation with operation by chef from both sides (nobs on both sides of the console).
- 4 high powered heating electric zones.
- Solid top made of mild steel, smooth pore-free and easy to clean.
- 4 heating zones independently controlled.
- Surface temperature can be regulated with two power levels up to 842 °F (450 °C) for a very high degree of accuracy.
- Joint free large cooking surface.
- Rapid heat up of the plate and continuously ready for use.
- Setting different temperature zones provides a temperature gradient over the plate for different cooking needs.
- Various sizes of pans can be used at the same time due to large surface area with no intermediate sectors.
- Pans can easily be moved from one area to another without lifting.
- Base compartment consists of a pass through electric heated standard oven for base heat. Ovens equipped with one stainless steel grid and one enameled baking tray.
- Oven temperature up to 644 °F (340 °C).
- Thick steel base plate in the oven for an even temperature distribution and storage.
- Heavy duty internal frame in 304 type stainless steel.
- Control parts are protected against water and heat.
- All major components can be accessed from the front for ease of maintenance.
- "Lasertec connection system" creates seamless work top when units are connected to each other.
- Unit delivered with four 7-7/8″ (200 mm) legs as standard (all rounds tainless steel kick strips as option).

Optional Accessories

- Set 4 castors (2 with brake).
- Left side stainless steel 0.118″ (3 mm) panel.
- Right side stainless steel 0.118″ (3 mm) panel.
- 5″ (130 mm) portioning shelf.
- 7.8″ (200 mm) portioning shelf.
- All round stainless steel kick strips.
- Polinox steel wool for solid top cleaning.

Electric

Supply voltage:

584156 (WLWWCBOOOC)	208 V/3p/60Hz - 51.7A
584157 (WLXWCBOOOC)	240 V/3p/60Hz - 50.2A

Total Watts:

584156 (WLWWCBOOOC)	17.8 kW
584157 (WLXWCBOOOC)	20.2 kW

Drain

Drain Line Size: 1″ ID

Drain only for draining of dirty water used for cleaning top burners spillage area.

Key Information

Solid top usable surface (width):	30″ (840 mm)
Solid top usable surface (depth):	29″ (740 mm)
Solid top working temperature:	212 °F (100 °C) MIN
Solid top working temperature:	842 °F (450 °C) MAX
Oven working Temperature:	212 °F (100 °C) MIN
	644 °F (340 °C) MAX
Oven Cavity Dimensions (width):	21-5/8″ (550 mm)
Oven Cavity Dimensions (height):	10-5/8″ (270 mm)
Oven Cavity Dimensions (depth):	27-9/16″ (760 mm)
Net weight:	485 lb (220 kg)
Shipping weight:	529 lb (240 kg)
Shipping width:	47-1/4″ (1200 mm)
Shipping height:	43-5/16″ (1100 mm)
Shipping depth:	43-5/16″ (1100 mm)
Shipping volume:	51.2 cu.ft (1.45 m^3)

If appliance is set up or next to or against temperature sensitive furniture or similar, a safety gap off approximately 6″ (150 mm) should be maintained or some form of heat insulation fitted.
